The New MG5 EV Long Range

Ireland's first fully electric, fully loaded estate car

The new MG5 EV Long Range gives you more on every level. Whether you're taking off with the family or hitting the road on business, Ireland's first fully electric, spacious and feature-filled estate gives you room for everything you need.

There's a host of features to make the journey easier – including our innovative MG Pilot driver assistance technology. One of the most reassuring features of the new MG5 EV Long Range is our 7 year warranty, giving you peace of mind journey after journey.

At a glance

Big on space

We all need personal space, and the new MG5 EV Long Range has plenty to offer.

Up to five passengers can travel in comfort, while the boot has ample room for everyone's luggage.

There's 479 litres with the load cover in place, or 578 litres with it retracted. Drop the 60:40 folding seat and you've got 1,367 litres for everything from large boxes and bikes to sports gear.

Big on features

The new MG5 EV Long Range keeps you connected and in control.

The 10.25" colour touchscreen features Apple CarPlay™, Android Auto™, reversing camera and satellite navigation.

Not to mention MG Pilot, our high-tech suite of driver assistance technology to give you more confidence and safety on the road.

Built for business or leisure

The new MG5 EV Long Range is designed for everyday life, but it's by no means ordinary. With generous boot capacity and a roomy cabin, your passengers can relax while it easily handles the load.

Whatever you need to transport, the new MG5 EV Long Range takes it all in its stride. From suitcases to bulky boxes, musical instruments to double buggies, you can move more in one go. And if the load is larger than normal, just drop the back seats and take advantage of 1,367 litres of space.

The spacious boot still leaves room for back seat passengers, who can enjoy plenty of head and legroom, even behind a taller-than-average driver. In the front, you can get comfortable with driver's lumbar support, a six-way adjustable driver's and four-way adjustable passenger seat.

On the Excite there's fabric upholstery, while the Exclusive comes with heated front seats and leather-style upholstery.

Smart Features for a more satisfying drive

From the electric powertrain upwards, the new MG5 EV Long Range is loaded with features that make your journey easier, smarter and safer.

Drive easier

Keyless entry and push to start button make setting off simple. On the road, the 10.25" colour touchscreen puts DAB radio, Bluetooth, USB ports, satellite navigation, air conditioning, Apple CarPlay™ and Android Auto™ all at your fingertips - so you can keep track of the traffic in between your favourite podcasts or albums.

Apple CarPlay™ and Android Auto™ ready

Music, maps, messages, calls. You can tap into all the features of your smartphone on the go with safe and convenient Apple CarPlay™ and Android Auto™ functions.

Shift Effortlessly

Change from park to drive with a turn of our elegantly simple rotary gear selector. With auto start and stop, plus an electronic park brake, you can enjoy total control with minimum effort.

Technology to empower

Drive safer with MG Pilot

Our advanced MG Pilot driver assistance technology gives you the added confidence of state-of-the-art warning and alert features. It includes Adaptive Cruise Control to maintain a safe distance from the car in front; as well as Active Emergency Braking, Lane Keep Assist, Traffic Jam Assist, and Intelligent High Beam Assist that automatically dips the headlights when they detect an oncoming driver.

360° vision

With the Exclusive model, you always park in the clear with a 360° camera.

Power up with Vehicle to Load

Our V2L technology gives you the freedom to power up other appliances away from home. Charge an electric bike on holiday, power an electric pump for your airbed or even plug in your laptop for remote working.

The supply is safely delivered with an optional cable and easily controlled through the 10.25" colour touchscreen on the dash.

- MG Pilot

- 360° camera (Exclusive model)

7 YEAR WARRANTY

LOW RUNNING COSTS

ZERO EMISSIONS

Driving Down running costs

Whether you're driving the family or on the road for business, you can look forward to low running costs with the new MG5 EV Long Range.

Business and fleet buyers can benefit from 0% Benefit in Kind (BIK)*, meaning that company car drivers can make big savings. The company car drivers can also avail of a grant (up to €600) from SEAI for the installation of a home charger.

Businesses can avail of Accelerated Capital Allowances (ACA) in the year of purchase to write off the full allowable cost of the vehicle against their profits if they wish.

*0% BIK on the first €35,000 Original Market Value (OMV) in 2023. 0% on the first €20,000 OMV in 2024. 0% on the first €10,000 OMV in 2025

MG Pilot

The MG Pilot suite of high-tech driver assistance technology gives you added confidence on the road. A selection of warning and alert features assist the driver, maintaining safety and simplifying everyday driving.

Traffic Jam Assist (TJA)

Adaptive Cruise Control (ACC)

Adaptive Cruise Control (ACC)

Adaptive Cruise Control monitors the road ahead. As long as the road ahead is clear, ACC maintains the speed set by the driver. If the system spots a slower vehicle within its detection range, it gently reduces speed by releasing the accelerator or actively engaging the brake control system. If the vehicle ahead speeds up or changes lanes, ACC automatically accelerates back to the driver's desired speed.

Intelligent Speed Limit Assist

The car will actively detect speed limit signs and alert the driver of the current speed limit by way of a symbol on the driver's instrument cluster. The symbol acts as a reminder to the driver, reducing the risk of exceeding the speed limit.

Intelligent High Beam Assist

When the headlight high beam is set to the AUTO position, the system automatically switches to low beam when it detects a vehicle ahead. This enables drivers to maximise the use of high beam, making night-time driving safer, without the risk of dazzling oncoming traffic.

Traffic Jam Assist (TJA)

When Adaptive Cruise Control is turned on, Traffic Jam Assist continuously analyses the speed of the surrounding vehicles and compares it with its own driving speed. If the system detects dense traffic or a traffic jam at speeds below 56km/h, the driver can activate TJA. The car will automatically follow the vehicle in front, controlling its acceleration, braking and steering within the same lane.

Lane Keep Assist (LKA)

Lane Keep Assist uses a camera to detect lane markings ahead and monitors the vehicle's position in its lane. When the function detects the vehicle is about to unintentionally move out of its lane, it warns the driver by means of a visual and audible alert, and steering wheel vibration. The car will also control the steering to keep within its lane.

Active Emergency Braking (AEB)

At speeds below 19km/h, the car will automatically apply its brakes to avoid a collision with a vehicle, bicycle or pedestrian. At speeds above 19km/h, AEB will reduce the likelihood or mitigate the severity of an accident.

Aftercare

7 Year Warranty

More peace of mind comes as standard with every MG. The new MG5 EV Long Range offers the reassurance of our full 7 year or 150,000 km warranty, whichever comes first. What's more, your battery is covered by an 8 year warranty. Our warranties ensures that expert MG technicians will always be able to keep your car in the best of health. They're also fully transferable to future owners.

Our family

The New MG5 EV Long Range is part of our dynamic, forward-looking family of cars. We offer two other all-electrified models, the MG4 and the MG ZS EV. Plus there's the stylish and more spacious MG HS Plug-in Hybrid SUV.

All new MGs offer the reassurance of our 7 year warranty and the friendly expert support of our nationwide network of professional, experienced dealers.

Book a test drive today

Get behind the wheel of the New MG5 EV Long Range and experience the space, efficiency and smart features first-hand. Book your test drive at your MG dealer today or online at
